Dieuleveut Ngele

Frontend Developer — JavaScript · TypeScript · React

Creative and passionate, I turn ideas into innovative web applications.

PROFILE

Frontend developer with 2+ years of experience, specializing in JavaScript, TypeScript and React. I build modern, high-performance interfaces, with strong hands-on practice of money-transfer API integration (RIA, MoneyGram, Western Union), API testing with Postman, and relational and NoSQL databases.

PROFESSIONAL EXPERIENCE

Frontend Developer — API Integration

June 2024 – Present

Flash International, Kinshasa

- **RIA Money Transfer:** integrated the send-money journey — OAuth authentication, authorized countries, delivery methods, payout partners, Amounts & Requirements, Draft Order, data validation; Cash Pickup, Bank Deposit and Mobile Wallet flows.
- **Flash Scan:** centralized in-house identity-document scanning solution, reused across the MoneyGram, Western Union, RIA, Mukuru and Taptap Send journeys — replacing the legacy mechanism and improving the operator experience.
- Postman collections and partner API test suites: RIA, Western Union, MoneyGram, Taptap Send, TerraPay, ZeePay, Swiss Remit, Mukuru, Mobile Money.
- Authored technical documentation for partner APIs.
- Internal user-documentation application (Angular, TypeScript, SCSS); Figma mockups and UX redesign of the FlashApp mobile application.

Full-Stack Developer (project)

Oct. 2024 – Nov. 2024

Agro Connect, Kinshasa

- Web platform connecting stakeholders of the agricultural value chain (React, JavaScript, Tailwind CSS, MongoDB).

Developer — Conversational Chatbot

Jan. 2024 – Feb. 2024

Muzikin Distribution, Kinshasa

- Designed and implemented a conversational chatbot (Botpress, Stack AI) with configured conversation flows.
